Certificate of Blockchain Record

ARC BLOCKCHAIN

This certificate records that the digital fingerprint (SHA-256 hash) of the file set out below was recorded by vDPO on the Arc Blockchain on 2 Oct 2026, 16:18:40 UTC.

1.	*Record*	[NDA and confidential information] Project Halcyon_ Confidential Pack.pdf
2.	*File fingerprint (SHA-256 hash)*	`24b942b49c9b47fc55c4939f2fdff2ac2a02a0d984209c273154b597b7a46abc`
3.	*Date and time of record*	2 Oct 2026, 16:18:40 UTC
4.	*Blockchain*	Arc
5.	*Recorded by vDPO (wallet)*	`0x2eaf1b899debe16399c49c498ff0d77af30d9ded`
6.	*Contract address*	`0x7385c363eb3a834c1082986e6723451c5e6ed408`
7.	*Block number*	23,906,701
8.	*Transaction ID*	`0xe316b9e8ef6d71ae83d90127f4f8487060c8482ad382ddb45eede1be6a6a85d0`
9.	*Order of record*	First record of this file on the Blockchain.

HOW TO VERIFY

1. Scan the QR code, or open the public record link below. It reads this record directly from the Blockchain.
2. To check a file, go to vdpo.org, choose "Verify Proof" and select the original file. It matches only if the file is exactly the same, down to the last byte.
3. To check without relying on vDPO, search for the transaction ID (item 8) on explorer.arc.io, the public Arc Blockchain explorer.

SCOPE OF THIS CERTIFICATE

The record shows that vDPO recorded the fingerprint of this exact file no later than the date and time above. It does not by itself establish authorship, ownership, identity, the truth of the file contents, or how long the file existed before it was recorded. The original file must be kept unaltered for the fingerprint to be reproduced.
